While Linda Evangelista was living in Manchester with footballer Fabien Barthez, she was a regular at the Karin Herzog counter in the local Debenhams, stocking up on supplies of must-have Vita-A-Kombi Eye Cream (£31).

Karin Herzog's unique Vita-A-Kombi formula is causing a stir. Kylie Minogue recently visited the Karin Herzog salon in Dickens & Jones for a Smoothie facial. After deep cleansing and exfoliation, the face is massaged with a special oil. An oxygen and vitamin A cream is smoothed on to

the face, over which a clay mask is placed to ensure that all the nutrients are completely absorbed. If Kylie's luminous complexion is anything to go by this facial is Light Years ahead of the rest. AR
